

## **NASCO CONTINENTAL REUNION Hotel Saskatchewan | May 5-7, 2026**

Be part of the conversation shaping North America's future!

We are proud to announce the 2026 NASCO Continental Reunion will be held in Regina, Saskatchewan—continuing our tradition of collaboration across borders and strengthening the ties that unite our North American community.

The NASCO Continental Reunion is a one-of-a-kind event that rotates annually among Canada, the United States, and Mexico, bringing together senior government officials, business executives, and industry experts from all three nations. Each year, the Reunion sparks candid discussions, fresh insights, and actionable ideas that drive North America's economic future.

We hope you'll join us in Saskatchewan, where this year's program will feature dynamic discussions and expert insights spotlighting North America's strengths in natural resources, critical minerals, energy, agriculture, and beyond.

Saskatchewan is located in the heart of North America, neighbouring the provinces of Alberta to the west, and Manitoba to the east. Covering 651,900 square kilometers – half of the province is covered in forest and 100,000 lakes and rivers are dotted across this vast landscape.

### **The Saskatchewan Advantage**

- Saskatchewan has the resources the world needs, providing food and energy security across North America and the globe.
- #1 in Canada for critical minerals production.
- 2<sup>nd</sup> largest uranium producer in the world and the only producer in Canada.
- The largest producer of potash, producing a third of the world's supply.
- World's largest exporter of dry peas, lentils, durum wheat, canola oil, mustard and oats.
